FAME MULTIPLEX AT RAGHULEELA MALL, VASHI

Design Company:
PGAG ARCHITECTS

Location:
Vashi

The first 6-screen ultra-luxurious multiplex in Vashi. Lobby has welcoming flooring pattern with ripples as concept with grand concessionaire. The Gold Class Screen is one of the 6-screens luxuriously spaced out only with 63 lavish fitted Recliners that stretch to 150 degrees. Gold Lounge designed with warm lighting ambience, veneer finish paneling, and wooden flooring exclusively for Gold Class patrons.

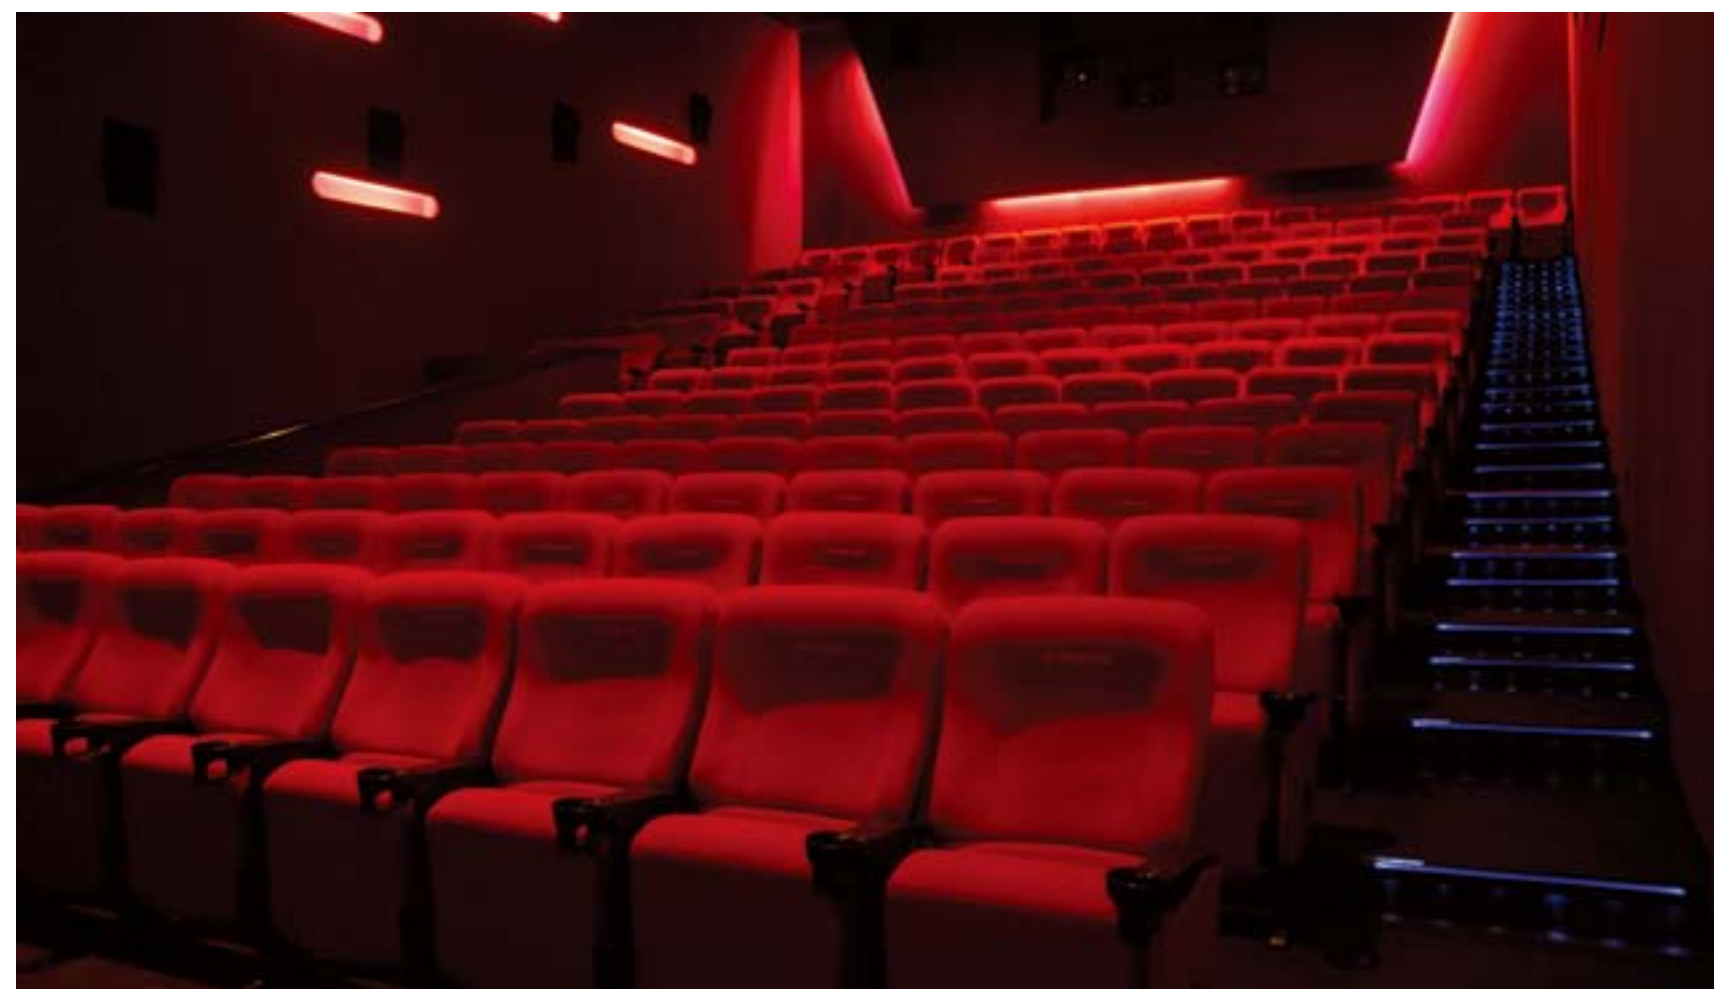

Located in Vashi's Raghuleela Mall, Fame Cinemas with 11,000 sq. ft. of lobby and a seating capacity of 1,015. It has six screens, with a gold class screen with a premier lounge area. Our main aim was to attract viewers with grand interiors and high-tech ambience. We wanted to provide something unique and the best.

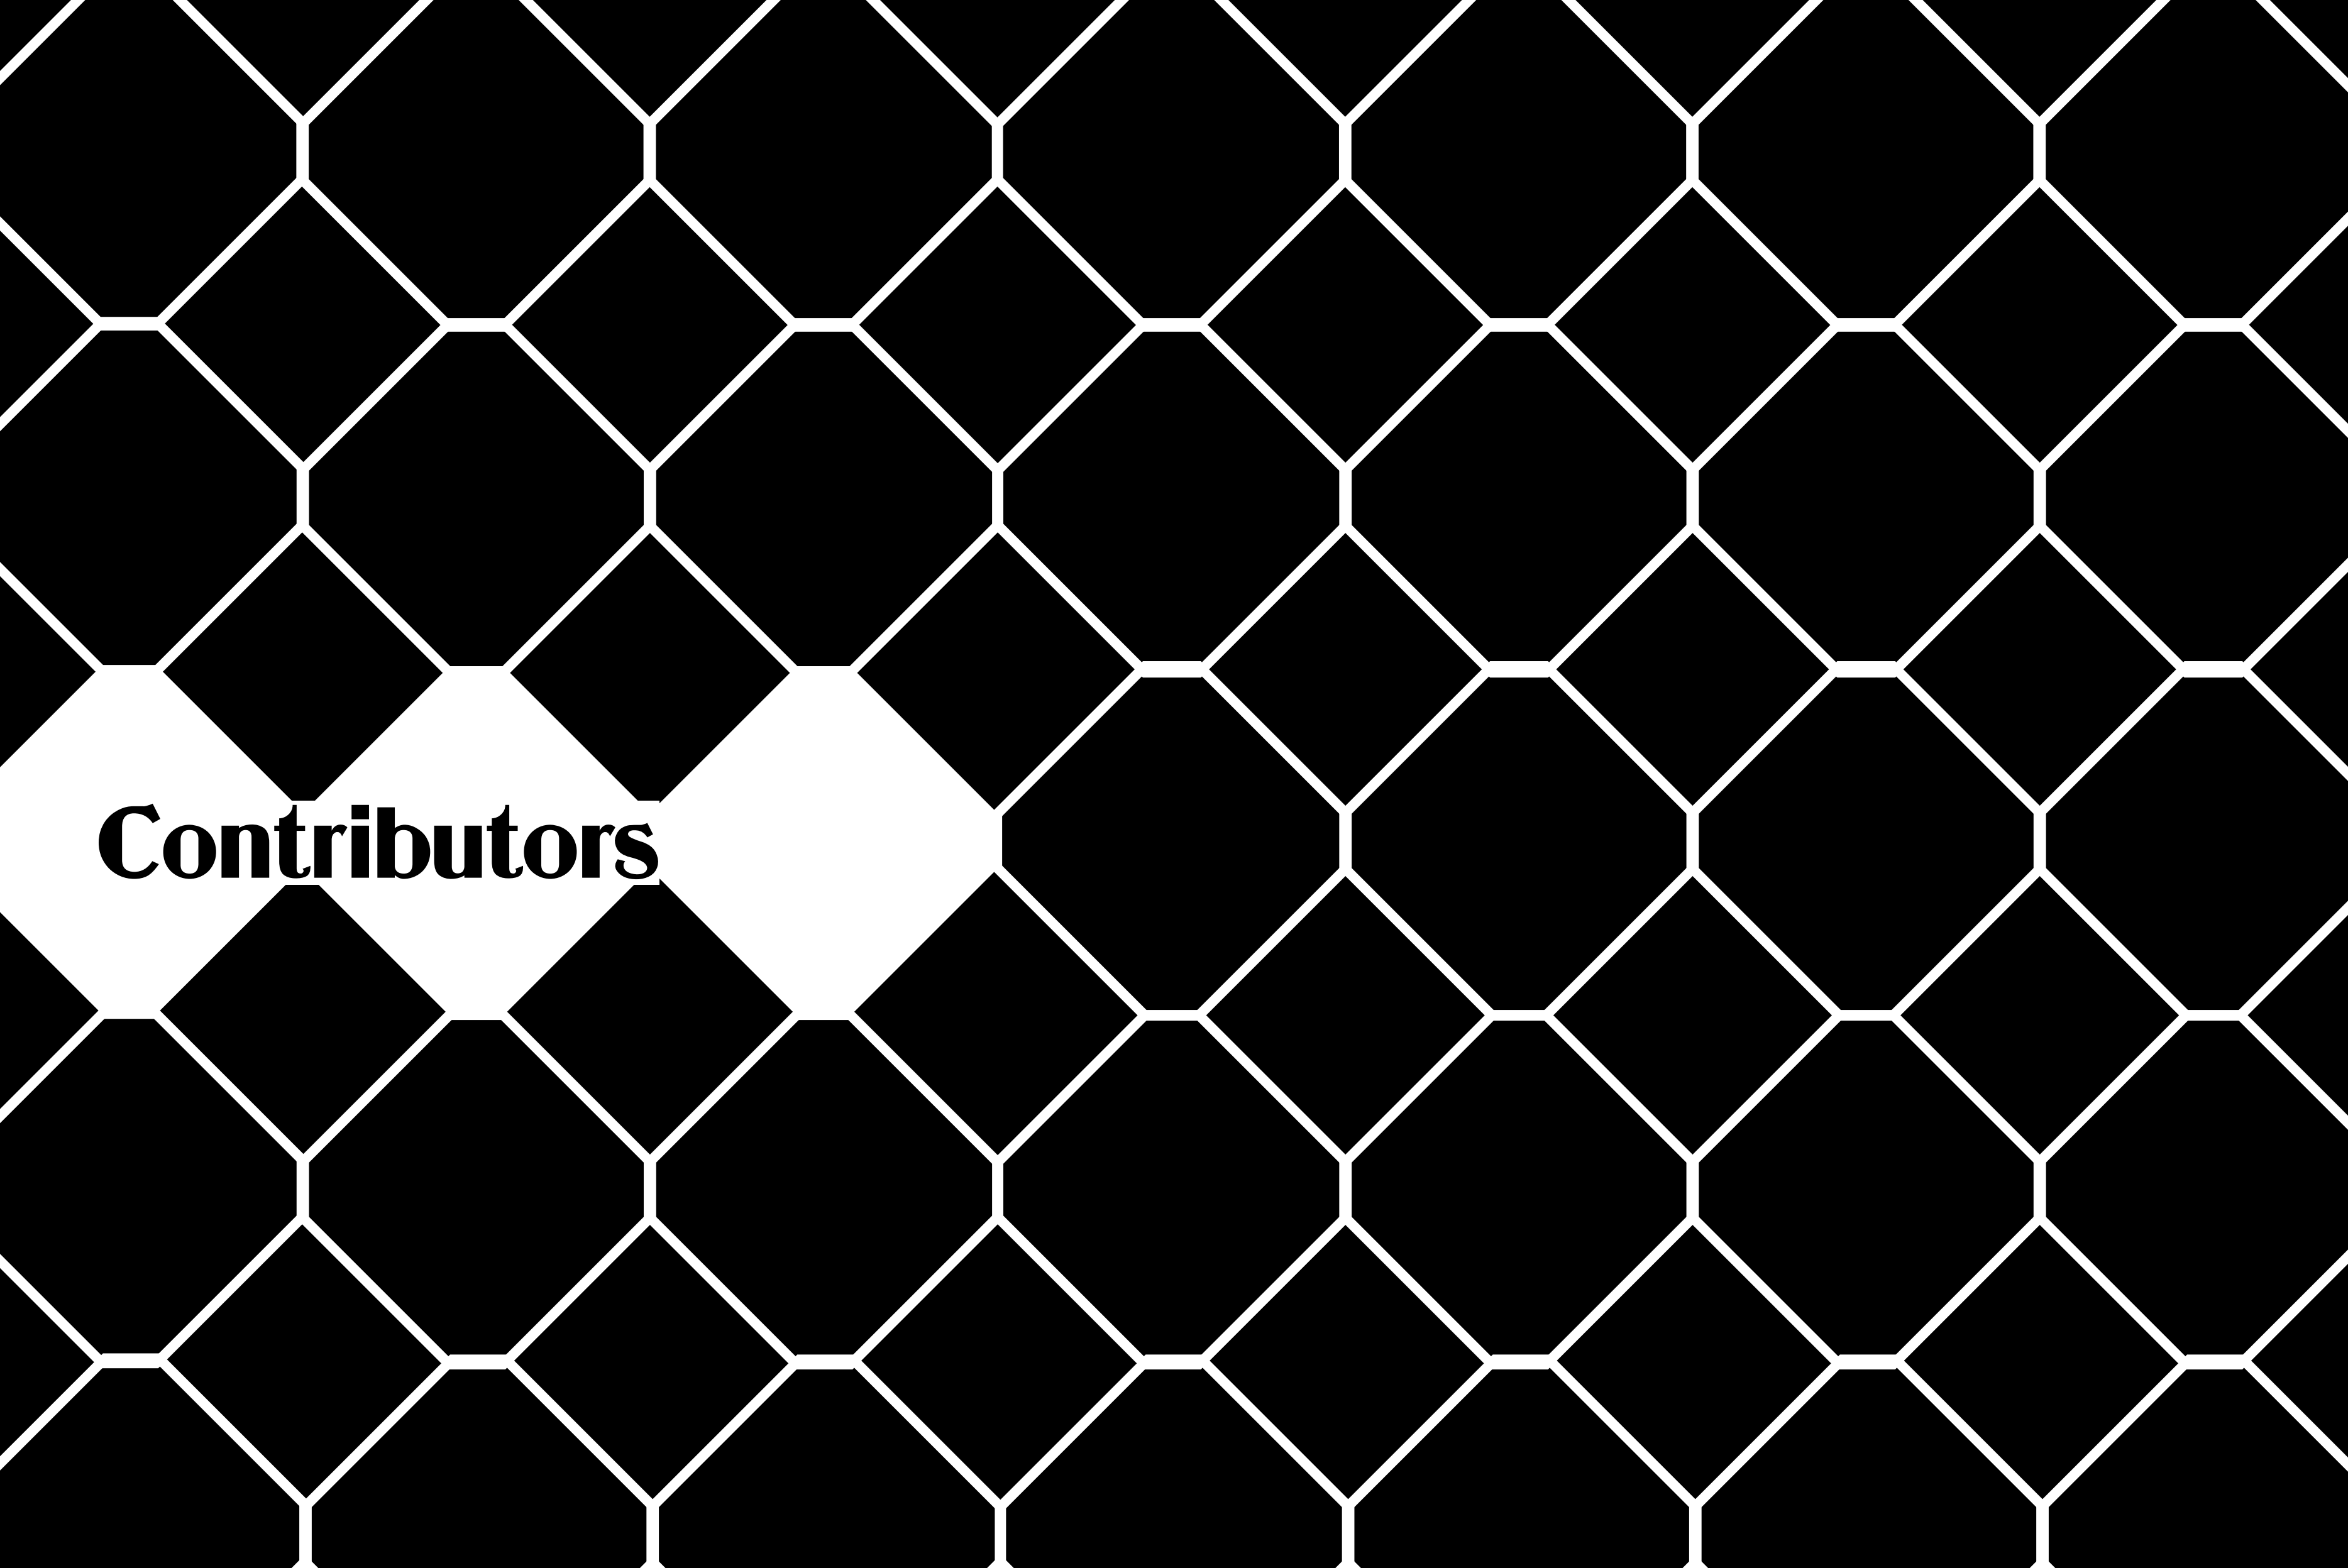

Apart from the regular and gold screens, the entire area is divided into three zones like the entrance foyer, cinema foyer and the premier lounge. The posh entrance finds the use of agglomerated sparkled marble in circular ripples pattern on the flooring that make the area look spacious. The curved ceiling merges with curved veneered columns lit from sides giving its reflection in flooring.

On one side, the wall has plasma panels with backlit mirror finished laminate panels.

The S-shaped water wall in the center adds serenity and calmness to the otherwise noisy area. Fluidity was the main concepts. Every feature, be it a ceiling or wall or flooring flows & blends into one another, resulting into a dramatic, contemporary space.

The firm was established in year 2005 by Architects Mr. Prakash Gore & Ms. Amita Gore. The firm offers complete services for architectural and interior designing in entertainment, commercial and residential spaces. The firm pursues innovation in every aspect of work devising methods that responds to each client's unique and changing needs. Be it public space like multiplex, retail outlet or mall places they rely on the modern infrastructure & support systems comprising of computer aided designs and dedicated team of qualified architects and interior designers to create comprehensive and integrated solutions for unique designs making luxury and practicality live under the same roof.

While developing the project, their aim is to provide design concept, complete detailed working drawings based on the concept drawings resolving the working details of furniture, lighting and other fixtures & make them functional, comfortable, easy to maintain and yet cost effective. It will be blending of aesthetics with elegance and functionality with flexibility.

The firm is specialized in Multiplex cinema design, the restoration, renovation and refurbishment of cinema theatres, and the conversion of large cinema halls into multi-screen complexes. Their designs incorporate the latest technologies, the best presentation and sound, and lobby planning strategies that can maximize revenues from café areas, bars and food concessions.

They have successfully completed several multiplex cinema projects in India for leading multiplex chains such as PVR cinemas, Fame cinemas, Big cinemas & Cinemax.
